Developing an Appropriate Contaminated Land Regime in China Xiaobo Zhao, 2019-08-27 This book explores the complex package of mechanisms used to identify, record, manage and remediate contaminated land, including the system for allocating liabilities that has been set up by China's contaminated land law and accompanying administrative decrees and environmental standards. Statutory control of soil or land contamination is a comparatively new phenomenon for Chinese lawmakers and researchers. After more than ten years of preparation, China recently adopted its first nationwide contaminated land law—the Law of the People's Republic of China on the Prevention and Control of Soil Contamination, which entered into effect in the beginning of 2019. The law deals exclusively with risk management in connection with soil contamination, and the remediation of contaminated land. This book analyzes various facets of how China is managing the risks associated with soil contamination and remediating contaminated sites by means of legislation. Chapters 1 and 2 reveal the current extent of the soil contamination problem in China and the initial policy responses of the country's central government. In turn, Chapters 3 and 4 address the regulatory frameworks and the latest contaminated land legislation at both the local and national level. Lastly, Chapters 5 through 9 offer concrete recommendations, based on lessons learned in the US and UK, for reforming contaminated land management in China. Overall, the book covers the past, present and future of contaminated land management in China, making it of interest to environmental policymakers, administrators, academics, lawyers and engineers engaged in soil or environmental protection. Further, it offers a source of reliable information for those who want to learn more about China's environmental legislation and contaminated land management policy.

Let's Go, Hugo! Angela Dominguez, 2013-03-07 Hugo is a dapper little bird who adores the Eiffel Tower -- or at least his view of it from down here. Hugo, you see, has never left the ground. So when he meets another bird, the determined Lulu, who invites him to fly with her to the top of the tower, Hugo stalls, persuading Lulu to see, on foot, every inch of the park in which he lives instead. Will a nighttime flying lesson from Bernard the Owl, some sweet and sensible encouragement from Lulu, and some extra pluck from Hugo himself finally give this bird the courage he needs to spread his wings and fly?

Nova Express William S. Burroughs, 2011-02-24 The Soft Machine introduced us to the conditions of a universe where endemic lusts of the mind and body pray upon men, hook them, and turn them into beasts. Nova Express takes William S. Burroughs's nightmarish futuristic tale one step further. The diabolical Nova Criminals—Sammy The Butcher, Green Tony,

Iron Claws, The Brown Artist, Jacky Blue Note, Izzy The Push, to name only a few—have gained control and plan on wreaking untold destruction. It's up to Inspector Lee of the Nova Police to attack and dismantle the word and imagery machine of these "control addicts" before it's too late. This surrealist novel is part sci-fi, part Swiftian parody, and always pure Burroughs.

Hong Kong Cinema Law Kar, Frank Bren, 2004 Starting with the first Western shadow plays shown in the late 1890s, motion pictures have played a significant role in China's cultural existence for more than a century. Initially centered in Shanghai, Chinese cinema boomed in Hong Kong in the 1930s, aided by the advent of talkies and the influx of talent and investment from mainland China, Southeast Asia, and America. From the late 1940s, the territory supplanted Shanghai as the Hollywood of China. In *Hong Kong Cinema: A Cross-Cultural View*, authors Law Kar and Frank Bren follow the story from Hong Kong's early silent, *Chuang Tsi Tests His Wife*, through the martial arts craze of the 1970s, to the medium's continued appeal to contemporary international audiences. Rather than provide a sweeping history, the authors focus on the impact of individual personalities, particularly local filmmakers and movie stars. They also consider Eastern and Western influences and examine major developments, including the changing role of women. By profiling key figures and events of the 20th century, this overview is the perfect introduction for anyone interested in Hong Kong's contribution to world cinema. Illustrated with photos.

Burroughs at his coruscating and

hilarious best.

Ayreen Anastas & Rene Gabri Ayreen Anastas, 2023-12-16 Notebook 089 is a result of the immense changes that have taken place in the world since 1989. With the end of the Cold War, the utopian neoliberal fantasy of a global capitalist expansion, unfettered by the limits of any borders (psychic, physical, ethical, national, or ecological) and governed through an extension of credit/debt coupled with correlated structural adjustments, assumed a new function for nation-states around the world, as a privatizer of gains, and a socializer of costs. In a span of twenty years the insolvency of this paradigm has become evident; not only has an entire world been gripped by conflict, depression, extreme inequalities, and irreversible ecological damage, but, in addition, the economic basis underwriting all of this is unable to continue without the very state intervention that had supposedly been rendered unnecessary. These notes do not recount this story, but rather take place in its wake, while also marking out the process of thinking through this critical epoch, in the midst of collective meetings and discussions leading up to and through what would be called Occupy. Rather than fixing these movements, this notebook collects a series of positions, ideas, and conversations, which trace individual articulations and provide multiple cartographies of events in which people said no to regimes of concentrated wealth/power from Cochabamba to Tunis, from Cairo to Fukushima, from Madrid to Athens, from New York to Carbondale, and beyond. Here, one will find a continuation of those struggles for autonomy and the affirmation of different forms of life in note form. Ayreen Anastas and Rene Gabri are artists and Agents for dOCUMENTA (13).

Film-induced Tourism Sue Beeton, 2005-01-01 Film-induced tourism has the potential to revitalise flagging regional/rural communities and increase tourism to urban centres, however, it carries with it unique problems. This book explores the downside of the phenomenon.

Memory Alison Winter, 2012-01-16 Picture your 21st birthday. Did you have a party? If so, do you remember who was there? How clear are these memories? Should we trust them? Such questions have fascinated scientists for hundreds of years, and, as Alison Winter shows in this book, the answers have changed dramatically in just the past century.

Opening Bazin Dudley Andrew, 2011-04-01 With the full range of his voluminous writings finally viewable, André Bazin seems more deserving than ever to be considered the most influential of all writers on film. His brief career, 1943-58, helped bring about the leap from classical cinema to the modern art of Renoir, Welles, and neorealism. Founder of *Cahiers du Cinéma*, he encouraged the future New Wave directors to confront his telltale question, What is Cinema? This collection considers another vital question, Who is Bazin? In it, thirty three renowned film scholars—including de Baecque, Elsaesser, Gunning, and MacCabe—tackle Bazin's meaning for the 21st century. They have found in his writings unmistakable traces of Flaubert, Bergson, Breton, and Benjamin and they have pursued this vein to the gold mine of Deleuze and Derrida. They have probed and assessed his ideas on film history, style, and technique, measuring him against today's media regime, while measuring that regime against him. They have located the precious ore of his thought couched within striations of French postwar politics and culture, and they have revealed the unexpected effects of that thought on filmmakers and film culture on four continents. Open Bazin; you will find a treasure.

Why Should I Protect Nature?, 2009

Buzz about Bees Kari-Lynn Winters, 2020-02 Imagine a world without bees. Not only would it be less colourful - with fewer wildflowers and flowering plants - it would be less fruitful as well. A world without bees would mean a world where the food supply would be significantly diminished. Global bee researcher Laurence Packer estimates that bees are responsible for 1/3 of our food supply. *Buzz About Bees* is the latest addition to the series that includes *Lowdown on Earthworms* and follows the same formula offering an in-depth look at an endangered and vital part of the natural world. Accompanying information about the history, social structure and science behind the world of bees and honey are conservation activities to make the world a place where hives of bees can thrive.
