The Cultural Gutter Carol Borden, Chris Szego, Ian Driscoll, 2011 Science fiction, fantasy, comics, romance, genre movies, games all drain into the Cultural Gutter, a website dedicated to thoughtful articles about disreputable art-media and genres that are a little embarrassing. Irredeemable. Worthy of Note, but rolling like errant pennies back into the gutter. The Cultural Gutter is dangerous because we have a philosophy. We try to balance enthusiasm with clear-eyed, honest engagement with the material and with our readers. This book expands on our mission with 10 articles each from science fiction/fantasy editor James Schellenberg, comics editor and publisher Carol Borden, romance editor Chris Szego, screen editor Ian Driscoll and founding editor and former games editor Jim Munroe.

Toxic Love Kristopher Triana, 2019-11-28 Warning: this book contains hazardous material. Handle with extreme caution. Exposure to its contents can cause severe damage to one's health. When you're forty-five, getting divorced, and disillusioned from years of soul-sucking work in corporate America, there isn't much to look forward to. With his personal life just as deep in the dumps as his professional life, Mike Ashbrook figures a janitorial job would be somehow fitting, but what he finds is a different kind of clean-up service. Now Mike is wrist-deep in human waste. As a crime-scene cleaner, when the police are done, his job is just beginning. His biggest problem now, besides wiping up blood, guts, and other nastiness, is his new co-worker, Sage. She's young, beautiful, and the only other employee who doesn't quit after a week. She may also be totally insane. Sage is not just an enigma-she's toxic. *Toxic Love* is a darkly comedic and erotic nightmare from the master of blood-soaked horror, Kristopher Triana. Throughout this tale of perversion, gore, and gangsters, Triana pens powerful characters who will move you just as deeply as they'll repulse you. But you know what they say: No Guts, No Glory Hole!

*A Wind Named Amnesia* Hideyuki Kikuchi, 2008 The Apocalypse didn't end with a BANG, but with a whimper. Silently, the

'amnesia wind' swept away all of mankind's knowledge. Thousands of years of human civilization vanished overnight as people forgot how to use the tools of modern civilization; who they were, how to speak - everything! Technology decayed as mankind was reduced to an extremely primitive level. Two years after the devastation, a young man explores a nation reduced to barbarism: America. Miraculously re-educated after the cataclysm, he is accompanied by a young woman - somehow spared the obliterating effects of the amnesia wind. Pursued by a relentless killing machine, they search for those responsible for stealing their memories.

When the Sparrow Falls Neil Sharpson, 2021-06-29 Life in the Caspian Republic has taught Agent Nikolai South two rules. Trust No One. And work just hard enough not to make enemies. Here, in the last sanctuary for the dying embers of the human race in a world run by artificial intelligence, if you stray from the path—your life is forfeit. But when a Party propagandist is killed—and is discovered as a “machine”—he’s given a new mission: chaperone the widow, Lily, who has arrived to claim her husband’s remains. But when South sees that she, the first “machine” ever allowed into the country, bears an uncanny resemblance to his late wife, he’s thrown into a maelstrom of betrayal, murder, and conspiracy that may bring down the Republic for good. *WHEN THE SPARROW FALLS* illuminates authoritarianism, complicity, and identity in the digital age, in a page turning, darkly-funny, frightening and touching story that recalls Philip K. Dick, John le Carré and Kurt Vonnegut in equal measure. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Small Cattle for Small Farms Margo Hayes, 2016-01-21 Small cattle breeds are manageable to control and care for and perfect for lifestyle blocks and small farms. They can be bred commercially for beef but their docile temperaments and small size also make them especially suitable for hobby farms. As more people have turned to the country for a 'tree change', interest in these breeds has grown tremendously. In this new edition of her popular book *Small Cattle for Small Farms*, award-winning cattle breeder Margo Hayes provides practical and easy-to-understand information for people interested in keeping small cattle for a range of reasons. The book assumes no prior experience with cattle and covers all the basics to help you set up an enjoyable and viable small farm, including: types of cattle and production systems available, how to select your stock, explanations of equipment required and basic cattle husbandry. It contains simple explanatory diagrams and photographs to make new concepts clear. With new and expanded sections on small cattle breeds, genetics and breeding systems, this second edition competently addresses questions asked by those entering small farming for the first time while providing a solid reference for those already in the industry. Detailed guidelines for raising healthy cattle through good nutrition, land management and herd monitoring are provided, in addition to tips for showing and marketing your cattle and up-to-date government requirements for land and stockowners.

Toledano believes that these people are the vanguard for a period of human-induced evolution, representing a turning point in history where beauty and physicality can be controlled and defined.
