The Other Black Girl Zakiya Dalila Harris, 2021-06-01 A Hulu Original Series Coming Soon “Riveting, fearless, and vividly original” (Emily St. John Mandel, New York Times bestselling author), this instant New York Times bestseller explores the tension that unfurls when two young Black women meet against the starkly white backdrop of New York City book publishing. Twenty-six-year-old editorial assistant Nella Rogers is tired of being the only Black employee at Wagner Books. Fed up with the isolation and microaggressions, she’s thrilled when Harlem-born and bred Hazel starts working in the cubicle beside hers. They’ve only just started comparing natural hair care regimens, though, when a string of uncomfortable events elevates Hazel to Office Darling, and Nella is left in the dust. Then the notes begin to appear on Nella’s desk: LEAVE WAGNER. NOW. It’s hard to believe Hazel is behind these hostile messages. But as Nella starts to spiral and obsess over the sinister forces at play, she soon realizes that there’s a lot more at stake than just her career. Having joined Wagner Books to honor the legacy of *Burning Heart*, a novel written and edited by two Black women, she had thought that this animosity was a relic of the past. Is Nella ready to take on the fight of a new generation? “Poignant, daring, and darkly funny, *The Other Black Girl* will have you stressed and exhilarated in equal measure through the very last twist” (Vulture). The perfect read for anyone who has ever felt manipulated, threatened, or overlooked in the workplace.

African Liberation Amos M. "Deluxe" Sirleaf Ph. D., 2010-03 Conflict is an increasing threat to national and international security and a major challenge to development. It is significant to acknowledge that civil conflict has impoverished countries in every major region of the world, with specific emphasis on Africa. Civil Conflict has wiped out the achievements of decades of economic and social development. In case of Liberia which is the main objective of this study, the 25 years civil conflict not only wiped out the achievements of decades of economic and social development, but destroyed thousands of lives, the physical assets of the country, and disrupted trade links which devastated the fabrics of the Liberian society. The Liberian violent conflict leaves a legacy of militarized, guerilla warfare leadership culture, divided societies, widespread displacement, and decimated institutional capacity. For many Liberians, dealing with devastation of war is a bitter experience that will never be forgotten. The present Liberian political context is extremely imperative in any transition from post-conflict situation to a more stable and secured environment that will facilitate the national reconciliation of former political adversaries and combatants, and lead to a more stable and secured environment that will enable refugees to return to their homes areas and permit the commencement of urgent rehabilitation effort such as the rebuilding of the administrative infrastructure of the country, such as the core ministries', legal system, especially the courts, and the opening and operation of ports, air ports, harbors, telecommunication facilities, and electricity. For these urgent post-conflict rehabilitation actions to take place however, it was necessary for an elected government to be in place with the clear mandate to govern especially where as in Liberia, the conflict originated from a struggle for political power between contending ethnic groups and their armed supporters. This scenario has not been a reality for the Liberian people. The greatest challenge to the Liberian people, however, is the post-civil conflict reconstruction, rehabilitation, and recovery, indeed for countries emerging from prolonged violent conflict. This study will be focusing on new system which will require the United States, the International Community, The European Union, The EEC, and other Non-Governmental Organizations, social, political, and economic cohesion as a precondition for reconstruction, rehabilitation, reconciliation, and recovery. As a practitioner, specialist, and a 21st century student of politics of life, Post-independence Black-Africa political and historic, cultural and Liberian political scientist, international political systems, comparative international political problems and global political cultural diversity, I am cognizant, and I do indeed care about Liberia /Africa in global conflicts that have profound effects on Africa, and implications which lead to war, instability, and international tension as well as about events which lead to equitable interdependence, integration, peace, improvement of quality of life, reduction of exploitation, imperialism human rights violation perpetrated by post-independence African leadership. Because I am a Black-African-Liberian, I do care about these national,

international, regional, state of affairs that specifically affect Africa in general and Liberia in particular, I have tried over the years to make some life time attempt to make some scholastic decisions as it reflects on my research, to advance procedures in conflict management and resolution theories about systematizing my observations and improving my knowledge and skills of pre-conflict analysis of Africa in general and post-conflict analysis of Liberia in particular.

Biomedical Visualisation Leonard Shapiro,Paul M. Rea,2022-12-03 This book brings together current advances in high-technology visualisation and the age-old but science-adapted practice of drawing for improved observation in medical education and surgical planning and practice. We begin this book with a chapter reviewing the history of confusion around visualisation, observation and theory, outlining the implications for medical imaging. The authors consider the shifting influence of various schools of philosophy, and the changing agency of technology over time. We then follow with chapters on the practical application of visualisation and observation, including emerging imaging techniques in anatomy for teaching, research and clinical practice - innovation in the mapping of orthopaedic fractures for optimal orthopaedic surgical guidance - placental morphology and morphometry as a prerequisite for future pathological investigations - visualising the dural venous sinuses using volume tracing. Two chapters explore the use and benefit of drawing in medical education and surgical planning. It is worth noting that experienced surgeons and artists employ a common set of techniques as part of their work which involves both close observation and the development of fine motor skills and sensitive tool use. An in-depth look at police identikit construction from memory by eyewitnesses to crimes, outlines how an individual's memory of a suspect's facial features are rendered visible as a composite image. This book offers anatomy educators and clinicians an overview of the history and philosophy of medical observation and imaging, as well as an overview of contemporary imaging technologies for anatomy education and clinical practice. In addition, we offer anatomy educators and clinicians a detailed overview of drawing practices for the improvement of anatomical observation and surgical planning. Forensic psychologists and law enforcement personnel will not only benefit from a chapter dedicated to the construction of facial composites, but also from chapters on drawing and observation.
