Saving Images Gordon W. Lathrop, 2017-11-15 Gordon W. Lathrop explores the place of the Bible as the subject of critical exegesis in contemporary liturgy. The text is grounded in the life of the assembly and the role of intertextuality in its creation. Lathrop finds patterns in biblical narratives that suggest revising our models of the shape of liturgy (Dix, Schmemmann) and our understanding of baptism, preaching, Eucharist, and congregational prayer. Saving Images calls for a new, reconceived biblical-liturgical movement that takes seriously both biblical scholarship and the mystery at the heart of worship.

Iconographie du péché originel verset par verset Christophe Stener,2023-11-19 Le dogme du péché originel est un des piliers de la foi chrétienne. C'est parce que l'Homme est pécheur qu'il doit être racheté par la Grâce divine, grâce rendue possible par le sacrifice rédempteur de Jésus-Christ, Fils de Dieu. L'art chrétien est doctrinaire, selon la formule d'Emile MALLE. Cet ouvrage, à travers 382 illustrations, suit le récit de la Genèse, verset par verset, pour montrer comment les artistes ont retranscrit en images les enseignements des églises chrétiennes, comment l'art se fit propagandiste mais, aussi, comment il évolua depuis l'art paléochrétien et médiéval, sorte de catéchèse en images, et ce dès la Renaissance, à une représentation de la Tentation comme une peinture de genre érotique qui prépare les transgressions ,parfois sacrilèges, de l'art moderne et de la publicité. Le commentaire des images est éclairé par l'exégèse biblique, la théologie et la dogmatique pour expliquer les choix faits par les artistes pour, par exemple, figurer le serpent avec le visage d'Eve ou montrer la création de la femme de la côte ou du côté de l'homme.

Visual Voyages Daniela Bleichmar,2017-01-01 An unprecedented visual exploration of the intertwined histories of art and science, of the old world and the new From the voyages of Christopher Columbus to those of Alexander von Humboldt and Charles Darwin, the depiction of the natural world played a central role in shaping how people on both sides of the Atlantic understood and imaged the region we now know as Latin America. Nature provided incentives for exploration, commodities for trade, specimens for scientific investigation, and manifestations of divine forces. It also yielded a rich trove of representations, created both by natives to the region and visitors, which are the subject of this lushly illustrated book. Author Daniela Bleichmar shows that these images were not only works of art but also instruments for the production of knowledge, with scientific, social, and political repercussions. Early depictions of Latin American nature introduced European audiences to native medicines and religious practices. By the 17th century, revelatory accounts of tobacco, chocolate, and cochineal reshaped science, trade, and empire around the globe. In the 18th and 19th centuries, collections and scientific expeditions produced both patriotic and imperial visions of Latin America. Through an interdisciplinary examination of more than 150 maps, illustrated manuscripts, still lifes, and landscape paintings spanning four hundred years, Visual Voyages establishes Latin America as a critical site for scientific and artistic exploration, affirming that region's transformation and the transformation of Europe as vitally connected histories.

West,2017-08-21 An anthology of 42 essays by distinguished scholars on current research and methodology in the art history of the late medieval and early modern periods in Germany, France, the Netherlands, and Belgium, written in tribute to Larry Silver, Farquhar Professor of the History of Art at the University of Pennsylvania.

The Sistine Chapel: a Study in Celestial Cartography William John Meegan,2012-11-30 GODS MISSIVE TO THE SOUL THE SISTINE CHAPEL: A Study in Celestial Cartography is a highly mystical and contemplative inquiry into The Mysteries and Esoteric Teachings of the Catholic Church. The Catholic Church's only onus in the world is to re-articulate the sacred scriptures esoterically into as many artistic venues as possible. Through a comprehensive comparative analysis of the symbolic and esoteric patterns codified to the Judeo Christian Scriptures, the landscape of Jerusalem, Chartres Cathedral (stone and glass), Dante Alighieris La Divina Commedia (pen and ink), the Sistine Chapel (mosaics, paint and wet plaster) and Saint Peters Basilica (marble) the reader can determine for him or herself the efficacy of the esoteric science, which hails from the dawn of the time/space continuum as a direct missive from God. The author discovered a relatively simple and yet extremely sophisticated mathematical and grammatical system of thought in ancient literature: the integration of the Seven Liberal Arts. Antiquity developed this esoteric science inherent in the soul/psyche to codify the Word of God esoterically into the world's sacred literature. Each letter of the world's sacred literature is symbolized and alphanumerically structured, which makes the interpretation of each word far more important than the sum of its letters. The Holy Writ: i.e. the world's religious literature is an encyclopedic library of knowledge relating wholly to the soul/psyche. There is no purpose for esotericism's existence other than for God to have a one-on-one relationship with the soul/psyche. Why is the soul/psyche seemingly in the world? How did the soul/psyche come to its present state of existence? What can the soul/psyche do to extricate itself from its plight when the dynamic forces of the world become too oppressive for it to bear?

and wisdom. Her paintings reveal an appropriation of the antique, a fusion between patronage and culture, and a humanistic pursuit of Mannerist conceits. Fontana's secular imagery provides a challenging paragone with the male tradition of history painting during the sixteenth century and paves the way for new subjects to be depicted and interpreted by female painters of the seventeenth century.
