**Second Temple Songs of Zion** Ruth Henderson,2014-07-28 Although in Second Temple literature we find a variety of songs concerned with the future of Jerusalem, little attempt has been made to analyse these comparatively as a generic group. In this study, three songs have been selected on the basis of their similarity in style, ideas and their apparent original composition in Hebrew. The texts have been subjected to a literary analysis both individually and then comparatively.

**Bear and Chicken** Jannie Ho,2017-11-14 Humor, a surprise ending, and an unlikely friendship make Bear and Chicken fall into the ranks with Mo Willems and Dev Petty, and the soup recipe at the end will inspire young chefs to get into the kitchen and cook! When Bear finds a chicken frozen in the winter snow, he brings it home to try to defrost it. As Chicken thaws-um, awakens-he fears that Bear is actually prepping to eat him. Oh no! All signs are pointing to a fateful end for Chicken-being wrapped like a burrito, chopped basil and veggies sitting on the counter, the huge pot on the stove that's just the right size for a chicken to fit inside. It's almost time for lunch, so Chicken makes a run for it! But in the end, Chicken learns that perhaps he too quickly jumped to conclusions. This funny and clever friendship tale teaches kids that things are not always as they seem, while learning a thing or two about making soup with a friend!

**The Fourteenth of September** Rita Dragonette, 2018-09-17 Rita Dragonette has written a strong-hearted and authentic novel about a naive young girl and her struggle to reconcile the dissonance between the world she sees and the world she was raised to believe in. Judy is truly a quiet hero; you won't forget her." —Jacquelyn Mitchard, author of *The Deep End of the Ocean* An enthralling historical novel set during the peak of the Vietnam War and told through the rare perspective of a young woman, who traces her path to self-discovery and a "Coming of Conscience." Perfect for fans of Kate Quinn and Heather Morris. On September 14, 1969, Private First Class Judy Talton celebrates her nineteenth birthday by secretly joining the campus anti-Vietnam War movement. In doing so, she jeopardizes both the army scholarship that will secure her future and her relationship with her military family. But Judy's doubts have escalated with the travesties of the war. Who is she if she stays in the army? What is she if she leaves? When the first date pulled in the Draft Lottery turns up as her birthday, she realizes that if she were a man, she'd have been Number One—off to Vietnam with an under-fire life expectancy of six seconds. The stakes become clear, propelling her toward a life-altering choice as fateful as that of any draftee. Judy's story speaks to the poignant clash of young adulthood, early feminism, and war, offering an ageless inquiry into the domestic politics of protest when the world stops making sense.

**Affirmative Advocacy** Dara Z. Strolovitch, 2008-09-15 The United States boasts scores of organizations that offer crucial representation for groups that are marginalized in national politics, from women to racial minorities to the poor. Here, in the first systematic study of these organizations, Dara Z. Strolovitch explores the challenges and opportunities they face in the

new millennium, as waning legal discrimination coincides with increasing political and economic inequalities within the populations they represent. Drawing on rich new data from a survey of 286 organizations and interviews with forty officials, Strolovitch finds that groups too often prioritize the interests of their most advantaged members: male rather than female racial minorities, for example, or affluent rather than poor women. But Strolovitch also finds that many organizations try to remedy this inequity, and she concludes by distilling their best practices into a set of principles that she calls affirmative advocacy—a form of representation that aims to overcome the entrenched but often subtle biases against people at the intersection of more than one marginalized group. Intelligently combining political theory with sophisticated empirical methods, *Affirmative Advocacy* will be required reading for students and scholars of American politics.

*Autism* Michael Rutter, Eric Schopler, 2012-12-06 This volume aims to provide the reader with an up-to-date account of knowledge, research, education, and clinical practice in the field of autism, from an international perspective. The emphasis throughout is on the growing points of knowledge and on the new developments in practice. We have tried to keep a balance between the need for rigorous research and systematic evaluation and the importance of expressing new ideas and concepts so that they may influence thinking at a stage when questions are being formulated and fresh approaches to treatment are being developed. The book had its origins in the 1976 International Symposium on Autism held in St. Gallen, Switzerland but it is not in any sense a proceedings of that meeting. Most papers have been extensively rewritten to provide a fuller coverage of the topic and also to take account of the issues raised at the meeting. Discussion dialogues have been revised and restructured to stand as self-contained chapters. Many significant contributions to the conference have not been included in order to maintain the balance of a definitive review; however a few extra chapters have been added to fill crucial gaps. We hope the result is a vivid picture of the current state of the art. As editors we have been most impressed by the advances since the 1970 international conference in London.
